

## Quarterly shows on track for full year

HSC Technology is a hardware and software company for the health and aged care industry. It is helping to shift the industry from reactive to proactive care, improving operational efficiencies of the sector. HSC has recently restructured with new management and moved away from a direct-to-consumer focus towards a direct-to-business approach, enabling larger and faster growth opportunities. As at 30 June 2021, HSC Technology has a 0.44% market penetration of the potential aged care market in Australia. We see the company’s market penetration expanding to 4% by the end of CY25, with medium-term revenue growth of 50-70% p.a.

### Key takeaways from 4C

- Subscriptions up to 7,400, from 6,300 last quarter +17%, up 58% for 1H and almost doubling vs 12 months ago. This sees their market penetration increase another 6bp to 44bp.
- Forward orders of 3,350 from ADT driven by pending shutdown of the 3G network and component of the 2,300 Anglicare rollout, confirms they are on track with our CY estimates. We are forecasting subscribers of 11,300 by year end, giving HSC a market penetration of 65bp.
- Sales were up 35% YoY for 2Q, and up 8.4% for 1H as they continue to build out large customer partnerships. Hardware sales are lead indicator for the software subscription numbers.
- Cash burn \$85k per month, with \$3.3m cash balance, should see cash levels last 3 years. HSC continues to invest in inventory ahead of 3G shut down along with product improvement through R&D. They continue to look to be on track for FCF positive over CY22.

### Confirming our investment thesis

- Structural demand for technological assistance in aged care supported by demographics, Royal Commission recommendations into continuous monitoring, global digitisation and limited trained staff in aged care.
- Competitive advantage from HSC’s software offering given exclusive licence over the CSIRO’s algorithm. While hardware sales are the cash generator of the business, the software side provides the value-add.
- With a current cash balance of \$3.3m, we expect HSC Technology to be cash flow positive over CY22.
- Valuation: Our base-case 12-month forward discounted cash flow valuation is \$0.053, implying 193% upside from the current share price. This assumes a further 16% dilution in issued shares from options and performance rights.
- Please see initiation for our more comprehensive view and risks to valuation.

## HSC TECHNOLOGY GROUP

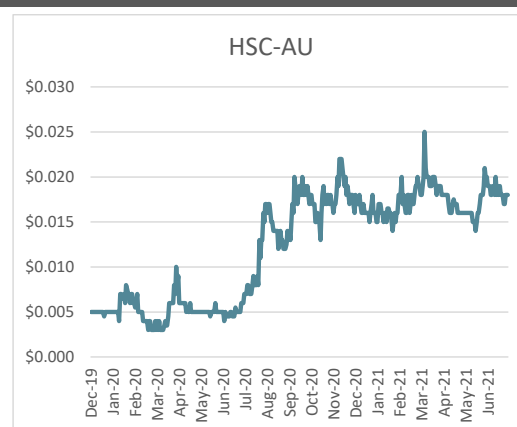

With medical-grade wearables, tracking technology and monitoring devices all linked through Internet of Things (IoT) networks, HSC Technology Group is changing the way healthcare is delivered and creating safer environments. HSC’s Assistive Technology suite is designed to enable personalised and proactive care which increases staff productivity, reduces costs and minimises unnecessary adverse medical situations.
