

Name change to Talius Group Limited

26 May 2023

We are pleased to announce, following shareholder approval at the Company's Annual General Meeting held on 25 May 2023, and subsequent confirmation by the Australian Securities and Investments Commission, that the Company has changed its name from 'HSC Technology Group Ltd' to '**Talius Group Limited**'.

This rebranding is an exciting step forward, reflecting our strategic focus and operational activities more accurately. This renaming is in alignment with the Board's goal to position Talius as a leading innovator in the aged, health care and disability sectors, whilst paving the way for continued expansion and success.

The new corporate identity leverages the name of our proprietary technology platform, which seamlessly integrates all devices and technologies into a single place, and the new name Talius will further reinforce our commitment to data-informed care solutions. We believe the Talius brand will allow users, stakeholders, and the wider market to more directly associate our name with our core business offerings.

Furthermore, our shareholders and stakeholders are already acquainted with the Talius name, ensuring a smooth transition.

We will be gradually introducing new branding elements, including an updated website scheduled for release by the end of the month. We will also roll out a new email address format: firstname.lastname@talius.com.au. For continuity purposes, emails sent to legacy addresses will be automatically redirected for a significant period.

Talius Group Limited has secured the ASX code '**TAL**'. The ASX has advised that its records and the code change will come into effect on Tuesday 30 May 2023.

The Talius Group Limited Constitution, which now incorporates the name change, can be found on our website here: [New Company Constitution](#)

We would like to reassure our shareholders that this name change will not impact their holdings or ownership rights. We are excited for the future under our new name and look forward to your continued support.

This announcement has been authorised by the Board of Directors of Talius Group Limited.

About Talius Group Limited (ASX:TAL)

TAL provides a suite of technology enabled care solutions to the aged, health care and disability sectors across multiple verticals, including retirement living, residential aged care, home, and community settings to improve the quality of life, later in life.

TAL's Software as a Service (SaaS) data analytics platform Talius Smart Care combines smart sensors with AI machine learning that delivers automated actions. Talius links awareness, analysis, and action through one platform allowing the care model to move from spot check care to sense-respond care. Health and disability care teams can switch their focus from data collection to building a human connection. Most importantly, people receiving health, aged care and disability services can benefit from a new era of autonomy and dignity.

TAL helps protect and connect older people and people with disabilities with a scalable healthcare technology platform integrated with leading third-party providers to ensure end-to-end solutions for timely and accessible support.
