Talius Group Limited (Talius or the Company) (ASX: TAL) is pleased to announce that it has successfully received binding commitments for a \$4.0 million placement of new fully paid ordinary shares in Talius (**New Shares**) to institutional, sophisticated and professional investors at \$0.080 per share (**Placement**).

Cygnit Capital were mandated to lead the raise which was for a minimum of \$2.0 million. Interest in participation was overwhelming, with the book closing at \$4.0 million placed and interest scaled back. Participation in the raise was from a combination of high-quality Institutional Investors and High Net Worth individuals.

Talius' ability to attract such strong demand underscores the growing recognition of its remote care and monitoring platform as a scalable and transformative solution across traditional healthcare and community care sectors as well as complimentary verticals through the distribution network.

A total of 50,000,000 New Shares are to be issued under the Placement at an issue price of \$0.080 per share, representing a 7% discount to the 30-day VWAP of \$0.086 per share and a 1.2% discount to Talius' last closing price of \$0.081 per share (as at 23 October 2025).

Proceeds from the Placement, combined with Talius' existing cash holdings, will support further enhancements to the Talius Platform for further scale and to support future working capital requirements for growth and commercial expansion.

Comments from the Managing Director

Commenting on the outcome of the Placement, Mr. Graham Russell, Managing Director said:

"The quality and quantity of interest received for this placement has been humbling. We feel a lot of the hard work has been done in establishing Talius as a key technology partner in the Aged Care Sector and other complementary verticals. The path forward and pipeline ahead looks very positive and with the new Aged Care Act about to come into effect on 1st November 2025, Aged Care providers are embracing the new funding model, which segments funding for assistive technology only. The demand from the Wesco Anixter partnership continues to grow and is providing opportunities both domestically and internationally. The future is bright.

Being well capitliased allows us to focus on execution of strategy and pipeline with a razor focus on growing our subscription base as the sector embraces the Talius platform. In that regard, I would like to welcome all the new shareholders to the journey and thank existing holders for their ongoing support as we continue on our path of focusing on strong delivery of client outcomes and shareholder returns. A special thanks to Jonathan and the team at Cygnet Capital for leading the raise."
